

For event temperature control rental...

...turn to the rental experts

Carrier Rental Systems has many years experience supplying temporary cooling systems and equipment to the event, hospitality and entertainment industries, providing clients with flexible, cost effective and high value solutions.

All projects are supported by a complete service from system design, equipment installation, service & maintenance cover and decommissioning on completion.

Complete temporary climate control solutions from the industry's experts.

Rental Systems

TEMPORARY AIR-CONDITIONING

Carrier Rental Systems supply temporary air-conditioning systems to suit any application from providing a single unit for a hospitality chalet to installing a complete stand alone climate control system for an exhibition centre.

The wide range of equipment allows Carrier Rental Systems to specify and install the correct equipment to fit the demands of your project and all systems are totally bespoke providing you with the most cost effective heating or cooling solution. All equipment is designed for flexibility, maximum operating efficiency and minimum environmental impact.

Ancillary power packages are also available upon request. Carrier Rental Systems constantly works towards providing innovative and creative methods of operation to give ongoing benefits to clients in terms of energy savings and ease of operation.

A comprehensive range of portable ice rink equipment is also available complimenting the complete event support package enabling you to produce a temporary real ice rink of almost any size.

CONTINGENCY PLANNING

Carrier Rental Systems offers a free "Contingency Planning Service" to ensure that your cooling demands can be instantly covered in the event of failure.

APPLICATIONS

The specialist Carrier Rental Systems event climate control equipment has been used in many applications covering the event and hospitality market including:-

Temporary structures for parties, exhibitions, catering, shows and general events.

The TV and film industry.

Studio or location air-conditioning and heating for the Film and TV industry.

Cooling for corporate exhibition stands and venues.

Main venue climate control.

Major sporting event hospitality PR and media centres.

Event theming, including real snow and sponsored ice rinks.

All the climate control packages can be supported by Carrier Rental Systems range of generator power and distribution equipment.

PEACE OF MIND

Carrier Rental Systems is supported by Carrier Corporation, the world's largest air-conditioning and refrigeration company.

With high quality and technically advanced equipment, experienced and highly trained personnel ensure that you experience the very best service and equipment. Carrier Rental Systems adopt stringent health, safety and environmental standards in all aspects of their business ensuring client's peace of mind.

Delivering a high level of service ensures Carrier Rental Systems continues to provide high quality cooling packages for a wide range of critical applications worldwide.

Experience:

Carrier Rental Systems vast experience covers a wide range of installations. This enables Carrier to provide a complete turnkey service from cost effective design and specification through to installation and operation.

The Carrier Rental Systems application team has specialist skills and knowledge to assist clients in both planning and system design.

Flexibility:

Carrier Rental Systems offers short or long term rental contracts to suit the demands of your business and minimise capital expenditure. In addition, the opportunity exists to increase the flexibility and operating efficiency by renting your air-conditioning or production cooling system.

Reliability:

All systems are designed with high levels of reliability, efficiency and performance as a must. This provides you with minimum running costs and maximum operational benefits.

Wide Coverage:

Carrier Rental Systems operates throughout Asia with additional offices worldwide. Clients who require a continuity of supply for climate control in various world wide locations can easily be served by Carrier Rental Systems.
